Shall toll to coming years the story,
How, stout of heart, and strong of hand,

A Glorious Opportunity for the Patriotic.

Special appeals for certain articles have been made in behalf of certain regiments which should not be unheeded. But here is an opportunity afforded to the sympathizing and the patriotic to bestow a great variety of articles necessary to the comfort of our soldiers *where they are most needed* without regard to location or State. When all of the soldiers of the Union have such strong claims upon our generous sympathy, the appeal should meet with a prompt and liberal response.

Let the husband and father who reads this hold a council of war with his wife and daughters, and determine what and how many of the following articles can be spared from the family stores. Blankets, quilts, socks, bed gowns, under shirts, drawers, pillows, slippers, jellies and other delicacies for the sick, books, magazines, back gammon boards, &c. Perhaps a box of these articles may be made up if not by one family, then by the assistance of neighboring friends. Perhaps only a little can be spared—a single pair of stockings, one or two glasses of jelly, a quilt, or some other article. That little, though it be the widow's mite, is not to be despised. Make it into a package and send it in the name of the Country, for it will comfort some poor sick wounded or destitute soldier. The gift of a single pair of socks if of one end of better, will be an earnest of the interest which is felt in the gallant men who are fighting the battles of the Union amid hardships and exposures which such gifts will contribute to lighten.

Our country calls for the services of every loyal citizen in this its hour of trial. Though we cannot all go forth to battle. But here is a work in which all can assist—the old and young, the weaker sex, the young, but particularly those who are kept at home by the claims of family or business. All can do something, but from the latter class much is expected. Every article freely contributed not only reduces the expenses of the war by so many timely relief to our soldiers than our Government can possibly extend. In the articles of blankets, quilts and socks for instance we understand that it will be absolutely impossible for Government, unaided, to supply all our soldiers before cold weather sets in, so that every one of these articles which may be promptly contributed, will save some brave soldier from personal discomfort and suffering, and perhaps from sickness and death.

Shall our soldiers be made comfortable? The appeal is made to you, whatever may be your age, sex or pecuniary means. It is personal and cannot be evaded, if you a spark of patriotism. Let no one boast of his love of country who has not fought her battles or done something for her brave soldiers. Nay, let every one esteem it a privilege—as it is—to have this opportunity to display his patriotism.

To the Loyal Women of America.

TREASURY BUILDING, Washington, October 1, 1861.

Sister Women:

You are called upon to help take care of our sick the wounded soldiers and sailors.

It is true that government undertakes their care, but all experience, in every country as well as our own, shows that government alone cannot alone delay provide for the humane treatment of those for whom the duty of providing, it is true, as far as possible, is acknowledged. Even at this period of the war, and with a much smaller proportion of sick and wounded than is to be expected, there is much suffering and disorder which a little loss becomes government cannot put the right thing in the right place at the right time. To other government has ever provided as well for its soldiers, so soon after the breaking out of a war of this magnitude, and yet it is certain true that there is much suffering, and that death unnecessarily occurs from the imperfectness of the government arrangements. This is partly owing to the inexperience, partly to the jealousy, and partly to the laudable and honorable zeal of various agents of government. It is in the organic defects of the system—that humanity to the sick must, to a certain extent, be sacrificed, under government, to the purpose of securing the fullest possible strength and efficiency to the military arm.

Whatever aid is to be given from without, must still be administered systematically, and in subordination to the primal object of military administration or the government. To hold the medical department responsible for the duties which belong to other branches, for government business which belong to other branches, for government business which belong to other branches, for government business

DETERIORATION OF THE BLOOD;
AND FOR THE FOLLOWING
FORMS OF DISEASE,
Most of which originate in DYSPEPSIA:

A TONIC AND ALTERATIVE MEDICINE.

Note.—The fabrication is a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby, heretofore from the want of such a preparation of iron as shall enter the stomach in a Protoxide state, and assimilate at once with the blood. This want is PERUVIAN SYRUP supplies, and it does solve the only form in which it is possible for iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of iron and other medicines have been found to be of no avail.

"Certificate of A. A. HAYES, M. D., of Boston.

It is well known that the nutritional effects of Protoxide of Iron are but very little expended in air, and that to manufacture a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by a process, which is a secret at present, and this solution most capable of all the proto carbonates, citrates and tartrates of the Materia Medica.

Certificate of Jos. R. Chilton, M. D., of N. York.

It is well known that iron has been found very difficult to preserve in a PROTOXIDE state for a considerable length of time, especially in the Protoxide of Iron.—The "Peruvian Syrup" I am pleased to say, accomplished this desideratum.

Sarsaparilla

[illegible]

AYER'S Sarsaparilla

FOR PURITY OF THE BLOOD.

And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Tuolumne, Feb. 6th, 1850.

J. C. AYER & CO., Gents: I feel it my duty to acknowledge to the your Sarsaparilla has done me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it colored inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful as I dare describe beyond description. I tried many medicines and several physicians, but without much relief from any thing. In this, the disorder grew worse. At length I was ordered to try a bottle of your Sarsaparilla. I did so, and was so much benefited that I persisted in using it, for I knew from my reputation that any thing you made must be good. I soon discovered and got it, and used it till it cured me. I took it, as you advise, in small doses at a time, and gained a month, and used almost three bottles. New and healthy skin soon began to form under the sores, which then fell off. My skin is now clear, and I feel no more any feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully,

ALFRED H. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Piles, &c.

Dr. Robert M. Proole writes from Salem, N. Y., 24th Sept., 1850, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the powerful agency of Ayer's Sarsaparilla. He also cured *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Robolino Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—I had a tumor swelling on the neck, which I had suffered from over two years."

Leucorrhoea or Whites, Ovarian Tumor, Tetter, Ulceration, Female Diseases.

Dr. J. S. Clanning, of New York City, writes: "I must cheerfully comply with the request of your agents in saying I have found your Sarsaparilla an excellent alterative in the numerous complaints for which we employ such a remedy, but especially in the *Diseases of the Scrofulous diathesis*. I have cured many inveterate cases of Leucorrhoea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing withstanding everything equally fit for these female derangements."

Dropsy, Costiveness, Dyspepsia, &c.

Dr. S. P. Adams, of Albany, Ala., writes: "A dangerous ulceration *between* one of the females I may family, which had defied all the remedies we could render, has at length been completely cured by your Extract Sarsaparilla. Our physician thought nothing but an hyperbolic could afford relief, but he advised the trial of your Sarsaparilla as the last resort before parting with it pronounced incurable. After taking your remedy eight weeks no symptom of the disease is visible."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1850.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used it in my practice, in many cases of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of long *standing Mercurial Disease*. Many patients have I cured of Scrofula in the blood, which had been supposed to be running his grave and the top of his mouth. If your Sarsaparilla, she by taken, cures him in five weeks. And I can vouch for it, secondary symptoms, in the same, and the old scrofulous taint away accomplishes per cent of it, so that I believe the disorder would soon reach his brain and kill him. I entirely yielded to my admiration of your Sarsaparilla. Its effects are so wonderful, and so well again, not of one, but of almost some disfigurements to the face. A woman who had been treated for the same disorder by my recommendation suffering from this cause, is perfectly well. The disease, I attribute to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, to be relieved entirely by your Sarsaparilla in a few days. I know from its results, which your agent gave me, that their frequenting from your laboratory must be a great curiosity, especially, those truly remarkable results with it fully and surprised me.

Respectfully yours, G. V. LARIDON, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Boston Co., Va., 4th July, 1850.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic rheumatism for a long time, which left the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me, and I believe it has given me a general health so much that I am far better than I ever knew it before. I think it a wonderful medicine. J. PREAM.

Sales V. Getz, sell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which depressed my health. I tried every thing, and every thing failed to relieve me; and I have been a troubled man in this infirmity years. Now I am free from the disease, thanks to *Ayer's*."

My friend, Joseph Hale, Esq., of Cincinnati, has long been a sufferer from Rheumatism, and very frequently has to resort to his crutches. I have recommended your Sarsaparilla to him, and he says it is the only medicine that ever did him any good.

PROP. WOOD'S

HAIR RESTORATIVE

AND

BLOOD REPOVATOR,

is precisely what its name indicates for while pleasant to the taste, it is powerful in invigorating and strengthening to the final powers—It also revitalizes, renovates, and purifies the blood in all its original purity and time restores the system completely to the vigorous condition it enjoyed previous to attacks of disease. It is the only preparation ever offered to the world of a popular character, to be within the reach of all, chemically and skillfully combined to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the general system, and allay all nervous and other irritations. It also perfectly eradicates mild scurvy, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those combined, having powerful tonic and soothing properties, and consequently can never injure. Since a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all, who have suffered a debility, for it needs no medical skill to be able to see that the system, when in a state of disease, is left in the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: Consumption, bronchitis, nervousness, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, cold feet, and all that class of cases so fearfully fatal if neglected to be in time, and *yet so easily cured by the use of this.* Also, liver, heart, generative or urinary, and bladder complaints, diseases of the kidneys, and in fact, all diseases of the urinary system, arising from irritation, prominent in fact all the excretions and secretions of the system, it will quickly prevent and cure. The unrivaled excellence for coughs and colds is well known to all who have used it, not only cure the debility following these complaints, but prevent attacks from taking root. Many instances have come to the knowledge of the publication, and cure the disease almost, if already attacked. And as it acts directly and powerfully upon the blood system, assuming the power to action, promoting in fact all the excretions and secretions of the system, it will quickly prevent and cure. The consequences follow as upon change of climate and water, hence all travelers should have a bottle with them, and all should take a bottle spontaneously at least three times a year. As a tonic it strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—dandies, students, and women. And all ladies not accustomed to much outdoor exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy, and those who wish to keep them of their beauty, for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Thus again the cordial is a perfect mother's relief. Then a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Modesty* forbids us to say more. And to you we appeal to detect the illness or decline, first only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often misunderstood with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your inner feeling affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of needy. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market-st. St. Louis, Mo., and sold by all good Druggists.

MRS. WILSON'S HAIR REGENERATOR.

The Regenerator is put up in two sizes, and retails for 50 cents for pint bottles, and $1 for quart bottles. The quart bottles are much the cheapest.

Who wants a Good Head of Hair? Use Mrs. Wilson's Hair Regenerator and Hair Dressing.

Please read a few certificates from the following reliable and well known people

Messrs. Henry P. Wilson & Co.—My wife is now using the Regenerator for her hair, and considers it far superior to anything else ever used for the hair. It is easily applied, does not soil in the least—has no disagreeable odor, increases the growth of hair, prevents it falling off, and softens the hair. I feel bound to forward you this certificate unsolicited, because I think an article that will do what your Hair Regenerator will, should be widely known. I think it the best article for the hair now in use. *Respectfully, &c*

"*I most cheerfully recommend it to all persons.*"
Rev. C. Russell Littleton, N. H.

Messrs. Henry P. Wilson & Co.—I have no hesitancy in saying that Mrs. Wilson's Hair Regenerator and Hair Dressing are the best hair preparations now in use. I shall continue to deal with you. Yours, &c.
Rev. H. H. EARTHELL, Lawrence, Mass.

November.

Messrs. Henry P. Wilson & Co.—I have used your Hair Regenerator and Hair Dressing, and have received much benefit from it. It is a article worthy of high commendation. I cheerfully recommend them to all who wish to restore their hair to its original color, or to anything else which will dandify or a dandified appearance. I have also used your Hair Dye, and find it to be a good article, and those who hold it falling from the head.
Rev. G. W. BLARK, Great Falls, N. H.

Messrs. Henry P. Wilson & Co.—I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard preparations for restoration of hair, and for the purposes they are designed for, they are perfectly satisfactory. I have used them, and find, in fact, they restore the hair to its original color, and in many instances prevent baldness—and in some instances have produced hair where it has been a stranger in several effective benefits.
Rev. HENRY HILL, Manchester, N. H.

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING.

Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37½ cts. per bottle, and for dressing the hair it is equal to any, young or old, there is not its equal in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a place on every lady's toilet table.

Use the Regenerator before retiring at night, and in the morning apply a little of the Dressing, and your hair will be much more flexible in color and beauty. Dressing your hair by these preparations, and use them for a month, and if you do not find we warrant you a good hair dressing, and the warranty is good for any one of flight.
